IN CASE OF EMERGENCY CALL:
970.871.5911

SAFETY INFO: PLEASE READ!

BE AWARE

- Trail configurations may change, including type of use allowed. Certain trails are limited to downhill only bike traffic – do not ride uphill or hike on trails marked on the map with signs stating "Downhill Traffic Only."
- New trails or features may not be shown on the map or the map may be out of date.
- Riding on mountain roads is prohibited unless otherwise posted but motorized vehicles maybe encountered at any time.
- Equipment allowed on mountain bike trails limited to mountain bikes, adaptive equipment and unicycles unless approved by senior management. Trailers or "tag-a-longs" are not allowed on the mountain.
- First Aid Services are only available during daytime Gondola operating hours.
- Hiking is available on most trails; however, to minimize encounters with mountain bike traffic we recommend the Thunderhead Hiking Trail and Vista Nature Trail.
- Please pack it in, pack it out – do not litter your National Forest!
- Do not feed or approach wildlife.

MOUNTAIN BIKERS RESPONSIBILITY CODE

- Common sense and personal awareness can help reduce some elements of mountain biking risks.
1. Ride under control and within your ability, so you can stop or avoid people, objects and on mountain vehicles. Always be courteous.
 2. Keep off all closed trails and closed areas; stay on marked trails, and don't cut switchbacks.
 3. Read and obey all signs and warnings.
 4. Inspect features and jumps before using or attempting.
 5. Do not stop where you obstruct a trail or are not visible from above or to other riders.
 6. Slow or stop as necessary when overtaking other riders. Anticipate other users at corners, intersections and blind spots. Slower riders should yield to faster riders as soon as safe to do so.
 7. Look uphill and yield to other riders when entering or crossing a trail or starting downhill.
 8. Helmets are required while riding on Steamboat Resort trails.
 9. Do not use lifts or terrain if you are under the influence of alcohol or drugs.
 10. You must have sufficient physical dexterity, ability and knowledge to safely load, ride and unload the Gondola and to ride the terrain and features you choose.
 11. Identify yourself to the Bike Patrol if you are involved in or are a witness to a collision or accident.
 12. Make sure your equipment is in proper working order and properly adjusted. If you are not completely familiar with your bike have it checked by a bike mechanic.
 13. Respect Steamboat Resort, its employees, other guests and property and your National Forest.

MOUNTAIN INFORMATION & WARNINGS

Lightning and Thunderstorms – Inclement weather, such as afternoon thunderstorms, is common in the mountains. Seek shelter when you see a storm developing. Keep off ridge tops and stay clear of lift houses, lift towers, power lines, open ski runs, the tallest tree in the vicinity, fences and signposts. Should you hear the storm warning horn sound three times, please make your way back to the Gondola or base area due to quickly approaching weather.
Fire Danger – Due to fire danger, smoking is strictly prohibited on the mountain.

MOUNTAIN INFORMATION & WARNINGS

Adequate Clothing – Be aware, the weather changes quickly here. There is usually at least a 10 degree temperature difference from the bottom to the top of the mountain. Rugged footwear for hiking is advised.
Environment – Please leave wildflowers for others to enjoy. The growing season is quite short at high altitude. Stay on designated hiking and biking trails and give the fragile ecosystem an opportunity to thrive. Be alert for and avoid wildlife.
Water – Drinking water is available at Thunderhead Lodge, & the base of the Resort. Don't drink from streams. Carry water with you while biking or hiking.
Alcohol/Drugs – Anyone who is under the influence of alcohol or drugs is prohibited from riding the lifts, biking or participating in any activities.
Altitude Hints – There is about 50% more ultraviolet radiation at 10,000 feet than at sea level. Always wear eye and skin protection. Also, at 10,000 ft. the oxygen value is about two-thirds the value at sea level. People with respiratory or circulatory illness should consult a physician before coming to this altitude. Drink plenty of water when hiking or biking. Our high, dry air accelerates dehydration. If you are not accustomed to the altitude: take it easy!
Mountain Biking – Mountain Biking is different than road or street riding and is confined to marked unimproved or partially improved trails where rocks, dirt, loose gravel, trees, stumps and other hazards may be encountered at any time. Changing weather conditions, variations in terrain, including steepness, natural and man-made obstacles and features, vehicles, other trail users and other dangers and conditions that may be encountered are inherent risks that are part of the challenge of mountain biking. Be aware that dead or live trees can blow over during wind events. Watch for and avoid trees or branches that may have fallen on mountain bike trails. Riding trails under construction is dangerous and strictly prohibited. Expect jumps and features on downhill only trails. Inspect each feature before using. Wooden features and bridges become slippery when wet. You control the degree of risk when using the jumps and features. Ride-arounds may or may not be available. Features can change due to use, weather or maintenance. You must ride in control and within your own ability. You are using these premises at your own risk, and assume all risks of this activity. Helmets must be worn at Steamboat Resort. Other appropriate equipment and protective gear should be used for downhill/ freeride biking. Use of jumps, features and airborne maneuvers can cause equipment failure and can significantly increase the risk of serious injury. Read and obey all signs!
In Case of Accident – Call 970.871.5911 or 911. Please note that cell phone coverage may be limited.
Difficulty Ratings – Degree of difficulty ratings and symbols are relative to Steamboat Resort only. There is no Bike Park, beginner trail from Thunderhead (top of Gondola) to the base area. Previous experience or a lesson is recommended to use the bike park. Any Rider may download with their bikes on the Gondola.
Bike Patrol – This map includes some trails adjacent to Steamboat Resort but outside the resort boundary. Steamboat provides bike patrol support within boundaries and within normal operating hours only.
Mobility Devices – The use of any power driven devices or vehicles by the public, including other power-driven mobility devices used by disabled individuals, creates a substantial risk of serious harm to the immediate environment and natural resources. Due to the need to address soil integrity, erosion and vegetative concerns, the Resort has adopted a "no motorized" policy for the public during the summer season. Mobility devices may be used in and around the Resort base area, depending upon the nature and size of the device and service dogs and motorized wheelchairs are allowed on the gondola.
